Brown Property Group

Brown Property Group is a private property development company that has operated across Melbourne’s east and south-eastern suburbs for over 40 years; partnering with Melbourne’s building industry to successfully deliver major residential developments. Brown Property Group is a significant employer in the south-east region, with over 150 staff and subcontractors.

As one of Victoria’s most respected private residential developers, Brown Property Group has a proven track record of creating vibrant communities that our residents love to call home.

For Brown Property Group, residential development is about building strong communities, with a focus around providing amenity, connectivity and liveability for our residents. Creating a connection to nature, community and recreation establishes an environment that provides an opportunity for residents to live a healthy and fulfilling lifestyle. Tree-lined streets, parks and wetlands, woven together with cycling and pedestrian paths are key features of our communities, linking our residents to local amenity.

Brown Property Group control all aspects of property development in-house, from acquisition to development and project management, to delivery by our civil construction crew, BPG Civil. Our structure and extensive delivery experience provides us with an intimate knowledge and understanding of Melbourne’s dynamic housing market and the ability to adapt and meet the changing needs of our residents and support our partners.

Brown Property Group have a well-established track record of delivering high quality masterplanned communities in the City of Casey. We work closely with our builder partners to ensure that our product is appropriately designed from the outset. These relationships have been the catalyst to incremental sales and consistent volumes over the past years via highly successful Builder Display Villages. Major builders such as Metricon, Carlisle, Henley, Simonds and ABN Group have worked with us from project inception to ensure that our businesses can grow together. The reliability of our delivery timing has been a major point of difference to our builder partners (and customers) in a marketplace where costly stage delays have plagued the industry.

Our completed local communities include Golden Grove, Grandview, Melington, The Avenue at Casey and Highgrove. Meridian is currently under construction with over 1500 lots delivered out of 3000, Canopy at Amstel is in its final stages and Riverfield, our newest 2300+ lot masterplanned community successfully launched in 2020. Our strong reputation in creating premium residential developments with their own identity is at the heart of our market success. Our masterplanning / visioning process, coupled with thoughtful urban design creates a unique "place", defined by its characteristics and shaped by our market knowledge. Never before has it been more important to differentiate projects from one another due to the homogeneous nature of PSP planning and Local Government requirements.

Project Delivery Personnel

Fraser Brown

Director

Over 30 years civil construction and property development.

For over 40 years, the Brown family have been developing land and creating vibrant communities in Melbourne's south-eastern suburbs.

Fraser has over 30 years experience across a range of land developments including landfill projects and residential subdivisions.

As Director of Brown Property Group Fraser has delivered a number of residential communities including Golden Grove, Melington, Grandview, The Avenue at Casey, Highgrove and the Meridian subdivisions in Clyde North. These projects have included roads and infrastructure for residential allotments and retail assets. They are greenfield subdivisions constructed from the ground up, with all aspects managed and completed under Fraser's guidance.

Ryan Pritchard

Chief Operating Officer

Valuer AAPI, Bachelor of Business (Property - Valuations)

Ryan has 30 years experience in residential development across a range of different projects in Greater Melbourne.

Joining Brown Property Group in 2012 as Development Manager, Ryan has managed the construction and delivery of The Avenue at Casey, Highgrove as well as the new masterplanned community Meridian in the south-east.

As Chief Operating Officer, Ryan oversees all facets of the land development process from acquisition, planning, construction and delivery, as well as sales and marketing.

Prior to joining Brown Property Group, Ryan held various roles including Director CBRE in Residential Development Valuations, Acquisitions and Development Manager for Stockland, and as City of Casey and Mornington Peninsula Valuer.

Steve Maxwell

Senior Construction Manager

Steve has over 30 years of civil construction experience, working across a range of different projects, including residential, commercial and industrial development, major infrastructure projects, landfill and rehabilitation works.

Since joining Brown Property Group in 2012, Steve has managed the civil construction for all BPG Projects: The Avenue at Casey, Highgrove, Meridian, Summit Business Park, Canopy, Riverfield and in excess of \$100M worth of Council intersections and roads.

While project managing all construction across the Brown Property Group portfolio, Steve has also worked to secure our accreditations from the industry and establish BPG Civil as one of the most reliable contractors in the City of Casey.

Chris Stanley

Foreman

Chris has over 20 years experience in civil construction and has managed the development of a number of key projects within Melbourne's growth corridors. Since joining Brown Property Group in 2016, Chris has managed the construction of the Highgrove, Canopy and Riverfield communities, contributing greatly to the reputation of BPG having the fastest growing communities.

Lachlan Underwood

General Manager — Development

Bachelor of Engineering (Honours)

Lachlan has over 15 years experience working in property, civil construction and engineering. Lachlan joined Brown Property Group as a Development Manager in 2015. Prior to joining Brown Property Group, Lachlan held the position of Development Manager with Evolve Development, delivering several large scale residential developments.

With a background in civil engineering, Lachlan has worked as an engineer and project manager on civil infrastructure projects for both government and private clients. Lachlan launched Meridian and is responsible for all land projects and the development team.

Maggie Williams

Development Manager

With over 12 years experience in the industry, Maggie has worked across a diverse range of developers including Peet Ltd, Oreana Property Group, Equire, AVID Property Group and Brown Property Group.

Maggie is passionate about the delivery of sustainable residential developments that help create positive and sociably responsible communities.

Using her skills in contract negotiation, construction management and project planning, Maggie plays a key role in the successful delivery of Brown Property Group's developments. Maggie is managing Canopy at Amstel and will be launching Riverfield Square in 2022.

Harry Philip

Development Manager

Harry has over 8 years experience working in property and civil engineering. Prior to joining the team, he worked in Stockland's land development business in the western growth corridor and as a Civil Engineer constructing road and civil Infrastructure. He is responsible for the co-ordination of circa \$50M of external Council infrastructure that will transform the local area.

Harry is currently managing the Meridian community in Clyde North. He hopes to use his background in project delivery to continue building the vibrant community that Meridian has become.

Jackie Briffa

Development Manager

Bachelor of Property and Valuations (Honours), Masters of Project Management

Jackie has over 7 years experience working within the property industry, starting her career in the graduate program at CBRE. Prior to joining Brown Property Group, Jackie worked at Peet Limited across a range of land subdivision projects, including the 2020 UDIA Best Masterplanned Development Award-winning project – Aston.

With a Masters in Project Management, Jackie brings her skills in project planning, playing a key role in the successful delivery of Riverfield. Jackie is passionate about the delivery of socially responsible communities and innovative design.

Jessica Pike

Assistant Development Manager

Bachelor of Business (Economics and Marketing)

Over 10 years, Jessica has delivered a diverse range of projects in the property and construction industry, including Commercial Fit out, Sport and Active Recreation Infrastructure, Medium Density and Land Subdivision.

Her diverse project management experience in construction and property, coupled with education in marketing, facilitates a holistic approach in delivering community-centric developments. She is a strategic, interdisciplinary thinker fostering innovative solutions and collaborative partnerships.

Jacob Chenery

Assistant Development Manager

Bachelor of Engineering (Civil), Graduate certificate Spatial Sciences

Jacob is a passionate Civil Engineer with a decade of experience under his belt. Driven by a desire to build sustainable and engaging communities, Jacob's journey began with a solid foundation in his field, earning both a Bachelor's degree in Engineering (Civil) and a Graduate Certificate in Spatial Science. He has thrived in various roles throughout his career, including Survey Manager and Project Engineer for various Civil Contractors and tackled a diverse range of projects across Melbourne and regional areas like Geelong, Ballarat, and Bendigo. Jacob possesses a strong expertise in subdivision construction, ensuring efficient and successful project delivery. His passion for creating thriving communities shines through his work, and he's always eager to connect and share his knowledge and enthusiasm.

Graham Nolan

General Manager - Marketing & Communities

Bachelor of Business (Marketing)

With over 16 years property marketing experience Graham leads the strategic development and delivery of all marketing activity for Brown Property Group.

Having joined Brown Property Group in 2013, Graham is responsible for planning, building, and executing marketing strategies and initiatives that will support and drive the growth of the Brown Property Group brand and associated businesses.

Graham also works closely with all of Brown Property Group's community partners and commercial sponsors to ensure that Brown's strong relationships are maintained throughout the community.

Anna Vichitra

Marketing Coordinator

With over 8 years of experience in marketing, Anna has worked across a diverse range of industries. From hospitality, coaching, building, fashion and now property, Anna has proven experience in managing projects from concept and strategy through to delivery.

With expertise in end-to-end digital marketing and working with clients to launch successful online businesses, Anna injects new age marketing into every project.

Anna's affection for property and project marketing began during her time with Welsh Group, where she worked across the construction and development branches. From volume, wholesale and medium density construction to residential and commercial development, she gained invaluable skills for the property industry.

Prior to her career in marketing, Anna worked in fashion, harnessing her design, creative direction and styling skills.

Anna is known for her disruptive and creative approach to reaching and re-enforcing audiences and brands.

Dhananjay Kapoor

Marketing Coordinator

A business marketing professional with over 8 years of diverse experience spanning B2B and B2C sectors in areas such as real-estate, service, product, retail, and sales. Dhananjay's career has been marked by an unwavering commitment to continuous learning and a passion for problem-solving.

Dhananjay drives the development, monitoring and evaluation of digital campaigns and media initiatives across the Victorian projects (Canopy and Riverfield) supporting the overall growth of the Riverfield and Canopy Residential Communities.

Daniel Begley

Sales Manager

With 20 years of experience, Daniel has worked across many facets of the property industry including Finning First National Cranbourne, Preston Rowe Paterson, Stockland and Kaikura Land Sales.

Starting at Brown Property Group in 2016, Daniel started as the Estate Manager at our Meridian community and transitioned to Sales Manager. Bringing passion and ambition to the team, Daniel continues to drive and deliver successful sales strategies.

Daniel is at the forefront of urban design and community creation for Brown Property Group.

Jason Bailes

Riverfield Estate Manager

Diploma of Real Estate Management, Diploma of Business and Licensed Estate Agent

Jason started in land sales in 1994 working for Delfin Lend Lease in Queensland before moving to South Australia and pivoting to sell larger inglobo parcels and mixed use sites. He joined Macquarie Bank in 2007 and was transferred to Melbourne to launch an exclusive golf course community. Prior to joining Brown Property Group Jason worked for Peet Ltd for more than 10 years, selling new communities in Cranbourne, Point Cook, Craigieburn, Tarneit and Botanic Ridge.

Jason joined Brown Property Group at the beginning of 2020 as Estate Manager for Riverfield and is now focusing on the new precincts within the Riverfield community, Riverfield Square and Promenade.

Belinda Jackson

Canopy Estate Manager

Belinda embarked on her journey in the real estate industry in 2012, initially with a volume builder. Her career evolved as she transitioned into land sales, initially as an associate, steadily progressing to the esteemed role of Estate Manager for two estates under the Pask Group's umbrella, partnered with Red23 in the Southeast.

After her time in the building industry, where she worked with some of Victoria's notable builders for four years, Belinda shifted her focus back to her true passion - selling land. She currently enjoys her role as Estate Manager at Canopy at Amstel community in Cranbourne, with Brown Property Group. Belinda's dedication and expertise shine through, providing valuable support to her clients in the dynamic field of real estate.

Dani Begley

Sales Associate

Bringing 10 years of experience within residential developmental, Danielle started her journey with a well-known builder, working as a Host before transitioning into her role as Sales Associate, launching Meridian alongside Daniel in April of 2016. Danielle's passion for customer-satisfaction and strong work ethic has been pivotal whilst working across four different land projects within Brown Property Group.

Oliver Belanszky

Sales Associate

Oliver first joined the construction industry in 2014 and has worked for a publicly listed land developer across the North and Southeast suburbs, including built form and land. Oliver's knowledge across residential land sales, combined with his exceptional customer services skills make him the right person to guide you through building your new home.

Chantelle Cour  t

Sales Associate

Chantelle is a highly motivated individual with over 10 years customer service and sales experience, priding herself on ensuring all customer's expectations are exceeded. A natural ability to form strong-relationships with builder partners and customers has ensured Chantelle's success whilst working within the south-east corridor.

Kylee Harman

Legal Counsel – In House

Bachelor of Law

Kylee has been working as in-house legal counsel for Brown Property Group since 2012. With over 20 years experience across property, planning and commercial matters Kylee manages all legal matters that relate to Brown Property Groups residential and commercial businesses

Perry Colyer

Conveyancing Clerk – management of settlements through PEXA platform & contract administration.

Bachelor of Commerce (Property & Commercial Law), Advanced Diploma of Conveyancing (currently undertaking).

Since join Brown Property Group in 2016, Perry has managed all the settlements of our residential communities.

Vicky Yang

Finance Manager

Masters of Professional Accounting and Institute of Chartered Accountants

Having joined Brown Property Group in September 2014, Vicky manages the finance team and is responsible for the reporting and management of all accounting functions across the Brown Group of companies.

Jill Sykes

Office / Administration Manager

Jill has worked across the Brown Group of companies for over 20 years. Managing a range of crucial business functions such as personnel and payroll, conveyancing and office administration, Jill provides essential support to all levels of the organisation.

Missie Preston

Humans Resources and Systems Manager

Bachelor of Arts (Behavioural Science), Graduate Diploma of Applied Sciences, Graduate Certificate in OHS, Diploma of Human Resource Management, Diploma of Auditing, Diploma of Government (Workplace Inspection) and Certificate IV in Workplace Training and Assessment.

Missie is responsible for the management of all Safety, Environmental and Quality systems for the Brown Group of companies, including auditing, training and compliance.

Missie brings a wealth of experience in this field having previously held the position of Worksafe Investigator and Field.

Georgia Langley

Office Manager

Georgia has 7 years office administration and management experience. Her responsibilities include organising team events, handling account management tasks, overseeing project management initiatives and providing personal assistant support. Her proficiency in these areas has not only ensured smooth office operations but has also contributed significantly to the efficiency and productivity of our teams.

Consultant Team

Survey / Engineering

Breese Pitt Dixon

Established in 1982 to provide civil engineering, land surveying and estate planning consulting services to the development industry, Breese Pitt Dixon has been recognised for its involvement in numerous award-winning projects, and has gained a reputation for providing consultancy services of the highest quality through the hands-on approach of its directors, its client relationships, long-term highly dedicated professional staff members, and a focus on project delivery.

Charlton Degg

Adam Charlton and Michael Degg, together with a respected team of professionals bring an expertise that provide its clients with a unique land development experience. Outcome focused for their clients and the community, their engineering initiative and surveying precision ensures economical solutions, together with a project management service based on decades of experience and exceptional communication.

Beveridge Williams

Beveridge Williams plans, designs and manages the development of thriving communities. Whether you're a corporate client, private developer, local, state or national authority, we balance social, environmental and economic factors helping you reduce risk and optimise efficiencies for the most outstanding outcomes.

Urban Design

Roberts Day

With more than 20 years in the field, Roberts Day have developed their Great Places Process to create signature projects that are lived in, commercially viable, vibrant and loved. Built on the wisdom of industry greats, the Great Places Process is imbued with their experience, insights, ideas and passion for place. Fine-tuned through their award-winning projects, this simple six-step process aligns with the value chain of development to add value and de-risk decision making.

Bioregional

Bioregional is an international environmental organisation, that incubates practical solutions to climate change using the inspiring One Planet Living framework and science based behaviour change. Bioregional aims to make a real difference, inspire others to do the same and work with its partners to make innovative projects and lasting change happen. Bioregional has twenty years of experience of delivering ambitious but practical products and services, which bring a commercial advantage for partners. Bioregional operates internationally with representatives in Canada, United States of America, Mexico, Europe and South Africa, with the head office in the United Kingdom, in addition to Australia.

Human Habits

Human Habitats design team specialises in master planning for greenfield and new town projects with experience across Australia, Asia, New Zealand and UAE.

Urbis

At Urbis, you'll find highly awarded urban designers and landscape architects, who are some of the country's leading creative thinkers influencing the shaping of cities. A collaborative approach sets their design advice apart. They listen to their clients' needs, they dedicate themselves to their vision, and they draw on their expertise – from economics to community engagement – to help clients in the public and private sectors design high performing, liveable urban landscapes.

Planning

Urbis

Urbis work on projects of all sizes, with a well-deserved reputation as experts in strategic planning and masterplanning for cities, communities, business parks, mixed-use developments and activity centres. This includes the 50,000 greenfield lots Urbis are presently working towards delivering for its clients across the State. Urbis enjoy excellent relationships with key decision makers within both the City of Casey and State Government, including DELWP and the new Victoria Planning Authority. These relationships enable them to have effective dialogue with key decision makers to identify key issues that assist in facilitating efficient processes.

Landscape

MDG

As landscape architects MDG strive for an appropriate balance between the environment (which is the fundamental underpinning of any site), and the ultimate user's needs. MDG seek to understand the requirements of those who will experience the spaces we create. They translate that insight into design outcomes which are imaginative, engaging and functional, as well as being environmentally responsible.

Tract

Tract is a recognised leader of landscape architecture in Australia. Their philosophy is to ensure the landscape architectural treatment for any site is of the highest design quality that respects environmental, social and economic concerns. To achieve this, thorough site analysis informs the design process, to ensure the ultimate design is respectful of the place and provides a site-specific solution.

Ground Control

Ground Control have successfully completed a wide range of projects in metropolitan Melbourne and regional Victoria, in Adelaide and rural South Australia and in the Northern Territory. Their ability in the landscape field to achieve consistent quality outcomes on budget is well known, with accurate cost planning one of their key strengths.

Urban Edge Landscape Architects

Urban Edge Landscape Architects is a multi skilled Landscape Architecture practice established in 2002 to provide specialised Site Planning, Landscape Architecture, Waterway and Wetland Design and Urban Design Services to a broad client base in both the public and private sector. In addition, we have established Crafter + Mogford Golf Strategies in conjunction with Neil Crafter to provide Golf Course Design Services. Our approach with all projects is to ensure our work is responsive to the brief and compatible with the client's priorities and objectives. We ensure thorough analysis and assessment of projects to gain a full understanding of the site and maintain technical competence and experience in delivery of the end product.

Stormwater Management

Incitus

With over 20 years experience working in engineering related projects, focusing specifically on stormwater quantity and quality management, Incitus has extensive experience in the development industry in relation to surface water management having worked for both the private and public sectors, including 15 years experience in strategic planning and design of stormwater management systems for greenfield and brownfield developments.

Retail Commercial Design

i2C

i2C stands as one of Australia's leading Architectural firms attracting a national and international client base drawn from both the public and private sectors. Drawing on extensive careers in retail architecture the i2C banner has flourished with professional and dedicated teams specialising in the core markets of Commercial, Urban Planning, Interiors and Retail.

Design IQ

Design IQ provides a range of urban design services to landowners, developers, private and government organisations and specialises in delivering highly responsive, innovative design outcomes that are market led. Working in collaboration with key stakeholders, they explore in detail all elements that will impact the development and its surrounding local and regional context.

BUCHAN Buchan Architects

Buchan is an acclaimed global architecture, interior, masterplanning and brand-experience studio with distinction in retail, commercial, mixed-use, residential, hotels and hospitality.

For 130 years, Buchan has delivered assets of enduring architectural quality and magnitude, worldwide. Our extensive portfolio spans boutique, intimate settings through to large-scale buildings and urbanscapes.

BPG Civil

Owning and operating BPG Civil gives us the ability to construct and manage the projects we deliver, providing us with a unique competitive advantage over more traditionally structured development groups. BPG Civil has an unrivalled reputation for speed and quality of stage construction delivery being the envy of many developers and civil contractors.

BPG Civil has direct access to an existing skilled labour force and directly owns the plant and machinery required to complete the required civil works. Rather than contracting an external company or hiring equipment; BPG Civil is immediately able to resource construction, saving time and negotiation. BPG Civil provides civil construction services associated with residential and commercial development including:

- Road and drainage construction
- Intersections
- Wetland construction
- Bulk earth works and final trimming,
- Landfill operations
- Car parks
- Playground / recreational open space

BPG Civil has the following qualifications:

- AS / NZS 4801:2001 Safety Management System standard certified
- ISO 9001:2008 Quality Management System standard certified
- ISO 14001:2004 Environmental Management System standard certified
- VicRoads Accredited Road R1, Financial Category F10
- Victorian Electrical Distribution Network (VEDN) Approved Accredited Contractor

BPG Civil has the following resources:

- A plant register of over 200 machines and 35 commercial vehicles
- A workforce of 70 staff, including engineers, civil construction trade qualified Supervisors and operators
- Over 100 trade contractors

PSP and Project Experience

Brown Property Group has been involved in the delivery of projects within the PSP environment for the past decade. Within Casey, we have worked closely with VPA and Council throughout the PSP processes for Cranbourne North, the C186 Service Business Precinct, the Thompsons Road PSP (1053) the Clyde Creek PSP (1054) and the Cardinia Creek South PSP (1055). We have delivered over 4000 residential lots, 130 Industrial lots in Summit Business Park and 8,000m² retail floorspace. We have also redeveloped the former Amstel Golf Course, an infill site that required re-zoning and approval via a Development Plan process with the City of Casey.

Throughout each PSP process and subsequent planning permit approval, these projects demanded the resolution of a wide range of complex engineering, land use and environmental issues. Despite this, Brown Property Group's partnership style approach to working with Council and authorities, enabled each obstacle to be dealt with in a more practical manner than would have been the case with an adversarial approach. For example, BPG successfully negotiated a reduction in the extent of employment land shown in the Thompson Road PSP with VPA and Council by presenting a series of strategic assessments highlighting the poor suitability of the land for purely industrial use.

We were also able to negotiate the rezoning of part of the employment land as Active Mixed Use and Mixed Use, which seeks to sensitively manage the transition of industrial activities, through finer grain employment with residential permissible above ground level, through density residential until finally transitioning to traditional residential.

Our experience in resolving issues of conflict with authorities / stakeholders has provided important learnings for our team, which we believe positions Brown Property Group at the forefront of Development in the South East.

We have included in the following pages a brief description of the PSP outcomes of each project that Brown Property Group has delivered in Casey, as well as the key insights / learnings from the previous experiences.

Experience That Shows

As one of Victoria's leading private residential developers, Brown Property Group has a proven track record of creating vibrant communities that families love to call home.

- 1 **Golden Ridge Croydon**
1999 – 2001 (20ha)

Clyde North

Highgrove — Clyde North

Located in the picturesque Clyde North, Highgrove provides the opportunity to enjoy a comfortable lifestyle, connected to nature and the community, with all the conveniences and amenities city living could provide.

Within the local surrounds, you'll find everything you need for day-to-day living including a range of shopping options as well as a variety of education facilities. A carefully thought-out urban design of four precincts, surrounding individual open spaces are linked via shared paths. Highgrove featured a successful Display Village of 27 homes surrounding our feature linear park that assisted in selling the project out ahead of schedule.

Highgrove has set the benchmark for stage delivery in the corridor with construction timelines being met or exceeded.

- 66ha / 1000 residential lots
- Precinct approach to urban design
- Second and subsequent home buyers
- Walkability, traditional neighbourhoods
- Cranbourne meteorite inspired sculptures

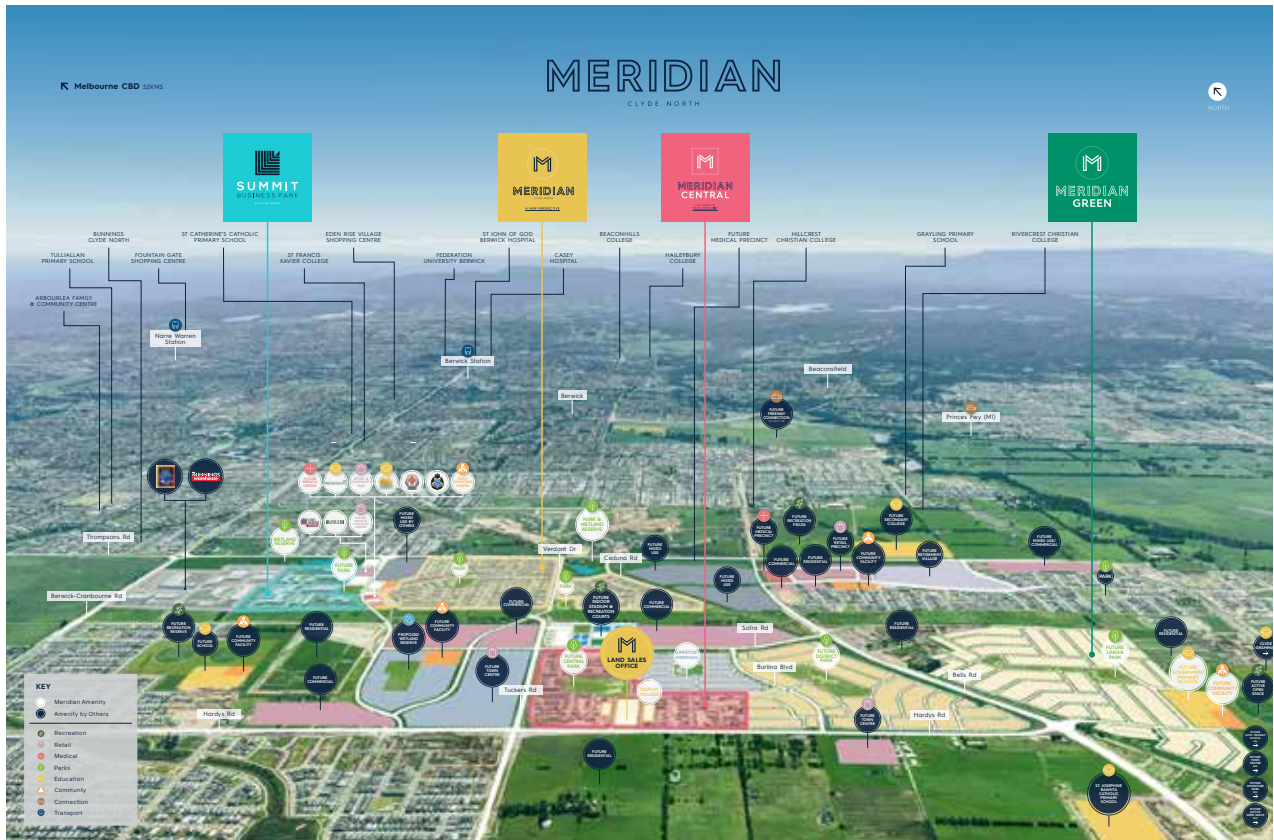

Meridian — Clyde North

Meridian is an established community that has been created with genuine community in mind.

Meridian offers a blend of stylish homes, tree-lined streets, parks and wetlands all woven together with cycling and pedestrian paths that aim to connect an active and engaged community. Featuring some of the best homes in Clyde North, Meridian has attracted the second and subsequent home buyer market. Brown Property Group have acquired surrounding sites over the years to make Meridian one of the largest projects in the area.

Meridian is a demonstration of the 20-minute neighbourhood, encompassing the Summit Business Park, commercial, mixed use and residential allotments. The vision for the Summit Business Park is to deliver flexible, contemporary sites that offer mixed use and commercial opportunities. Summit is strategically located in the booming south-east corridor on Thompsons Road and will play a significant role via the delivery of a critical road link to the future Major Activity Centre of Clyde North.

- 276ha / 3000 residential lots
- Transition of land use from industrial to commercial & residential
- Residential precincts of varying character
- Extensive parklands and wetlands
- Excavated site material utilised as clean fill
- Construction of Tuckers Road and Hardy's Road amongst nearly \$80M of Council works
- Summit Business Park is sold out with commercial space now open and a range of businesses fully operational
- Over 55's Lifestyle Community with 280 dwellings
- 2 x Display Village's with Melbourne's biggest builders.

The Avenue at Casey - Cranbourne North

With construction completed in 2014, Brown Property Group were proud to deliver The Avenue at Casey, a fully masterplanned community located in Cranbourne North in Melbourne's south-east.

The Avenue at Casey is now home to over 900 households who enjoy picturesque parklands, reserves and over 13 hectares of wetlands. The Avenue Village Shopping Centre was also completed in 2013 and provides a range of shopping options to all of the local residents. The Avenue at Casey featured two Display Villages over the life of the project.

- 67ha / 900 residential lots
- 13ha of wetlands
- 3km of shared trails
- Planning across 3 PSP's
- The Avenue Village Shopping Centre — 8000m² of retail space including a Woolworths, 7 specialty shops and a childcare facility
- 2 Display Villages

Canopy at Amstel

Canopy is the redevelopment of the former Amstel Golf Course and enjoys a spectacular landscape setting. It presents a rare opportunity to create a residential environment that offers a truly superior lifestyle experience unlike anything else on offer in the City of Casey.

Thoughtful design celebrates the established canopy trees and gentle slopes of the land, respectfully integrating existing trees into the streetscape and public realm. The site requires the creation of two wetlands and two separate parks, linked via linear tree reserves to create 600 residential lots plus a 200 lot retirement village.

Environmentally sustainable design principles and practices are a key pillar of the Canopy development. Brown Property Group achieved widespread tree retention through innovative urban design solutions and provided open space beyond Council requirements all while minimising the resource needs and waste production within the Canopy community.

In 2017 the project was awarded the Urban Development Institute of Australia's, EnviroDevelopment certification in all six leaves including, ecosystems, waste, energy, materials, water and community development.

- 52ha / 600+ residential lots
- Complex planning issues ; infill rezoning, Development Plan approval, community engagement and Council partnership
- Tree retention, unique streetscapes and water bodies
- A new benchmark for golf course redevelopment and Cranbourne
- Partnership with the Amstel Golf Club
- Clubhouse incorporated into design

Riverfield

Situated in Clyde, within the City of Casey, Riverfield offers natural beauty here, local amenities there and space all around.

Ideally positioned, the area's best schools, cafés and shopping centres are all close by and there's more to come. Future residents will enjoy the convenience of two future primary school and community facilities on-site, and are perfectly positioned to take advantage of the proposed Clyde Park Sports Precinct and Clyde Regional Park (located across the road from community).

Riverfield will comprise 4 unique precincts offering a mix of housing alternatives for every buyer / resident.

In the future, Riverfield residents will also be well serviced by public transport, with access to local trains and bus services, as well as major road networks providing a convenient gateway to metropolitan Melbourne, the south-east and beyond. Located only 40 kilometres to the picturesque Mornington Peninsula, you can make each day a new adventure at Riverfield.

- 184ha / 2300+ residential lots
- 2 x over 55's community by Lifestyle Communities Australia
- Two Future Government Primary Schools
- Over 28ha of landscaped open space, parks and reserves
- Clyde Creek conservation area
- Brown Property Group negotiated a relocation of an intersection from the PSP which considerably improved the urban design and community outcome
- Immediate access to the Future Major Town Centre
